

AIT OUJKAL FAROUK

SOFTWARE DEVELOPER

PROFILE

Software Developer with a Bachelor's degree in Application Development from HELB in Brussels and hands-on full-stack development experience through an internship at AMA European Consulting, combined with professional IT experience as an IT Trainer. I have a strong interest in designing and developing software solutions, with a solid foundation in programming, web development, and problem-solving. Curious, analytical, and adaptable, I am looking to join a software development team where I can contribute to real-world projects, take on technical challenges, and continuously grow my skills.

WORK EXPERIENCE

Espace Forma

IT Trainer | Sep 2026 - Present

- Deliver hands-on IT training covering general computer skills, software applications, and digital literacy, alongside programming fundamentals.
- Adapt training content and pace for varied audiences, including children, senior citizens, and titres-services workers.
- Design and prepare learning materials and practical exercises suited to each group's needs and level.
- Support trainees individually, explaining IT and software concepts in clear, accessible terms.

AMA European Consulting

Developer Consultant - Internship | Jan 2025 - Jun 2025

- Developed an application in Node.js using TypeScript and PostgreSQL.

TECHNICAL PROJECTS

HelbHotel

Jan 2026 - Jun 2026

- Developed a hotel room reservation management application using JavaFX.
- Designed and implemented an intuitive user interface for efficient booking and room management.

BasketBall_LiveScore

Sep 2025 - Jan 2026

- Developed a web application for basketball match simulation using C# (back-end) and TypeScript with Angular (front-end).
- Integrated SignalR to enable real-time score updates and seamless client-server communication.
